

PERFORMANCE, RELIABILITY AND SECURITY

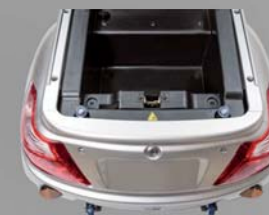

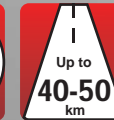

Move in style with the new Orthoquad Discovery, a versatile scooter designed for everyone! Stand out with its sporty and modern look and take advantage of the latest driving technologies.

It is easy to drive and control with LCD display showing speed, battery level and distance traveled. The Discovery is also equipped of a FM / USB radio with Bluetooth speakers and also has a nice storage with large compartments in the steering column and under the seat.

It is equipped with a high quality suspension for a comfortable and smooth ride on any type of surface. It is the safest in its class with its fully automatic electromagnetic braking system and its manual disc brake. The Discovery has a high visibility with its complete LED lighting package for optimum security.

It's powered by a rugged, high-performance 950W engine that will never let you down and get the best warranty. The Discovery is definitely a device you can really rely on.

STORAGE UNDER THE SEAT
